- Clean product cut-off
- After-use disassembly possible facilitating recycling

TubAirless® Tube by PumpArt

- 95% evacuation rate, minimizing product wastage
- Easy dispensing of thick formulas
- Shape and ergonomics retention
- Flow and size control
- Cream freshness preservation
- Pump-free eco-friendly
- 360° application range

The new level of cleanness.

Smart and clean solution for fluid and sensitive formulas.

TubAirfree® by Gaplast and PumpArt System.

TubAirfree® is a lightweight, squeezable and cost effective innovative packaging that offers similar features as traditional rigid airless packs: formulas preservation, easy-dispensing, 360° application, full evacuation (no waste !), shape and ergonomics retention. TubAirfree® is up-to 5 times lighter than common rigid bottles with pump.

Range of applications (examples):

- Fine Face Creams
- BB-Creams
- Shampoos
- Body Lotions
- Serums
- Shower Gels
